RE: Docket #07-16

Dear Secretary Dortch:

As a small business owner, I am constantly concerned about running an efficient office, meeting my customer's needs, and operating in a cost-effective manner. As a computer consulting company, my company relies on communication lines provided by a third-party. When those lines go down, my business goes down, and my profits decline as well. The advantage of free broadband Internet access will be immeasurable to all small business owners should the FCC approve Docket item 07-16 and award M2Z a license.

It is not my interests alone that would be served by license approval to M2Z. The entire community would benefit from the ability to build linkages. As a provider to both city and county governments around northeastern Ohio, I am aware of the savings that would accrue should these governmental entities be entitled to free Internet access. Those cost savings would fund needed initiatives in our schools, infrastructure, and human services.

Your prompt consideration and approval of Docket 07-16 is encouraged.

Sincerely,

Anthony Ma, P.E.
Chief Executive Officer

Cc: FCC Chairman Kevin Martin
Commissioner Copps
Commissioner Adelstein
Commissioner Tate
Commissioner McDowell
Fred Campbell, Wireless Bureau Chief
Senator George Voinovich
Senator Sherrod Brown
Representative Stephanie Tubbs Jones
